

BUILD ME A ROCKING Horse

Now is your chance to own a piece of British heritage...a collectable, hand-built children's rocking-horse. Based on an original classic fairground carousel horse, complete with genuine chrome or brass barley-twist pole.

Our rocking-horse is a quality, bespoke product, to be enjoyed by collectors and children alike. Your own unique horse would be the centre-piece of your child's nursery or playroom. Hand-built in Britain from durable wood, steel and fibre-glass components, your horse will give many years of enjoyment, becoming a family heirloom, handed down from one generation to the next.

Each horse is carefully assembled and hand-painted to your exact requirements. Customised initials will be applied to each end of the rocker and a date plate and dedication plate (for your special message) will be applied to the base of the rocker.

Each bespoke ride will be accompanied by a framed 'birth certificate' showing the date of manufacture together with a comprehensive five year guarantee. As you would expect with a hand-built product, creating your custom horse may take up to three weeks to manufacture from receipt of your instructions.

Contact us now with your requirements or visit our website at:
